Sweet 16 birthday cake sweet pet dog cake Dachshund birthday cake These are our favorite simple birthday cakes that anyone can make - even if you haven't made a birthday cake before! With easy shortcuts and step-by-step instructions, anyone can make an awesome birthday cake. When we grow up, my mom always made our birthday such a big deal. She would always do things on her way to make our day special and one of the ways she did this was by making us any type of birthday cake we wanted. Now that my children are getting older, I want to continue the birthday tradition of making them a special birthday cake, but my decorating expertise is definitely a beginner level. That's where these cakes come in! These cakes are simple - you could make the cake from scratch or use a mixture cake from a box. The icing on each of them is just buttercream or whipped icing (no complicated fondant in these recipes!). Some of these cakes (like pancake cake and ice cream cake) are a fun touch on a traditional cake - my kids love to mix it up and try different things. Click on the picture or words below the picture for all the details on instructions on how to make each cake! You can also like: Basic White Two-Layer Cake Recipe 1.
